Dehmel & Bettenhausen Patentanwälte PartmbB

Our Firm

We are a firm of patent attorneys in the center of Munich with an office in the BioPark Regensburg providing a comprehensive, customized and expert fashion full-service to our clients, especially in the fields of intellectual property rights. For all attorneys working for Dehmel [&] Bettenhausen expert advice of the highest quality as well as proximity to our clients and responding to their demands and requirements are at the very top of our priority list. The JUVE Handbook "Wirtschaftskanzleien" (Handbook of Commercial Law Firms) has ranked us as one of the leading German patent law firms in the area of biotechnology and pharma since many years.

Our Services

We support and advise our clients in all issues pertaining to patents, utility models, trademarks, design patents, employee inventions, pharmaceutical and medical product law, acquisition, protection and prosecution of property rights. We also support our clients with the elaboration and negotiation of contracts, particularly contracts governing research and cooperation, contracts on the commercial utilization of property rights, such as sales and license agreements. We advise on the drafting of business plans and execute freedom-to-operate and due diligence analysis. We consider all commercial aspects as a matter of course during the consulting process.

Our Technical Competence

All disciplines within Life Sciences like biotechnology, including molecular biology, immunology, cell biology, genetic engineering as well as pharmaceuticals, nutrition technology, medical and process engineering, environmental technology, organic and inorganic chemistry, represent the core fields of our scientific and technical expertise.
