## ***FIT Production GmbH***

### **Business Strategies**

FIT Production is a member of the FIT Group - a technology leader in the area of Additive Design and Manufacturing (ADM) based in Lupburg, Germany. Based on more than twenty years of ADM, we provide high-end volume manufacturing at the highest quality level and at competitive costs. From project definition, to optimization and/or design of your data models, to the successful implementation of a project – we have the complete know-how to support you in every phase of the manufacturing process.

We manufacture high-tech products and components world-wide for leading companies in industries such as automotive, aviation and aerospace, mechanical engineering, and medical technology. We have been certified according to ISO 9001 and are compliant to the American FDA requirements as well as the European guidelines of EN ISO 13485 regarding the manufacturing of medical devices and implants.

Our additive technologies allow an unseen degree of freedom of design, allowing a completely new way of conceiving products and surpassing traditional manufacturing. Together we will find creative solutions for the best imaginable use of additive technologies for your company. Think additive!
