

CRITEX GmbH

Business Strategies

The name CRITEX stands for “Creative IT Experts”. CRITEX supports its clients with development and implementation of their IT-projects.

MedITEX is part of CRITEX and is specialized on medical software solutions and combines IT expertise with medical competence. MedITEX develops individual software solutions for physicians in private or joint practices, medical care centres as well as for pharmaceutical manufacturers, tailored for their specific fields and business requirements.

Core Technologies and Services

MedITEX analyzes the current requirements of its clients and develops custom-tailored solutions based on the analysis.

Apart from individual software solutions, MedITEX also offers a wide range of ready-made software applications for therapy documentation, patient information, practice management, diagnosis or analysis. Additionally, MedITEX provides relevant hardware products through its partners.

For ideal use of their products, MedITEX offers seminars and trainings.

Patent, Licenses, Co-operations

MedITEX has a partner network in the different medical competence areas with partners for support and service, partners for technologies as well as partners for reproductive medicine.
